We have performed the agreed upon procedures for the period ended **February 2013** in determining the turnover levels and can confirm the following:

The turnover for the period ended February 2013 reflected an annual turnover significantly less than the R5 million threshold. Although the abovementioned is the current level of turnover and is closely related to the economic indicators, turnover may be more or less in future. Consequently, this letter does not serve as a guarantee that the income reflected will continue at the same levels.
